

CHIA LIN CHEN

FRONTEND ENGINEER

Taipei, Taiwan (UTC+8) | chialin76@gmail.com
www.linkedin.com/in/ellenchialinchen | github.com/ellenchialin

SUMMARY

Frontend engineer with 4 years of React and TypeScript across AI-native B2B SaaS and Web3 products. Sole frontend engineer at Qlo (later selected for YC S26), taking an AI underwriting workstation from zero to beta; previously shipped NFT trading products at Lootex processing \$1M+ in volume and 100K+ on-chain claims. Ships fast in ambiguous 0-to-1 environments, with AI-assisted development as daily practice.

WORK EXPERIENCE

Frontend Engineer – Qlo (selected for YC S26) Jan 2026 – May 2026

- Sole frontend engineer building an AI-native underwriting workstation from zero to beta, centralizing carrier workflows to replace fragmented legacy tools and spreadsheets; the product was later selected for Y Combinator's S26 batch.
- Built review UIs for AI-driven document extraction pipelines, enabling underwriters to verify and correct auto-generated submissions quickly and confidently.
- Built a schema-driven form and premium calculation engine with React Hook Form and Zod, handling deeply nested data structures with synchronized multi-step workflows.

Frontend Engineer – Lootex July 2022 – Dec 2025

- Developed an NFT trading platform handling \$1M+ in transaction volume, using BigNumber precision and robust error handling to ensure accurate wallet interactions.
- Built a no-code NFT launch platform with a 4-step on-chain publish flow, including chain-state-derived resume for mid-flow failures.
- Led frontend for Web3 game FizzPop, optimizing rendering performance for a smooth gameplay experience; the game reached 39% Day-1 retention (3–4x category average).
- Co-developed a Tailwind CSS design system with Storybook, standardizing accessible UI components and shortening interface development cycles across the team.

SKILLS

Frontend Core: React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS

Forms & State: TanStack Query, React Hook Form, Zod

AI-assisted Development: Cursor, Claude Code

Web3 Integration: Viem, Wagmi

Tools: Git, Figma, Storybook

Languages: Chinese, English

EDUCATION & TRAINING

Master of Public Relations & Advertising — UNSW Sydney, Australia 2015

Frontend Engineer Program — AppWorks School Jan 2022 – June 2022

- Completed 1,000+ hours of immersive full-time training (<10% acceptance rate); independently built and launched a personal project in 5 weeks using Scrum.
